

## Gold Package

Remote/Onsite Deployment | 60 Days

### Who should consider this Package?

The Egnyte Gold Package is our enterprise-level package, which includes remote deployment consulting for 60 days, a three-day onsite visit, and is optimal for customers with complex deployment requirements. This package includes the following additional benefits:

- Assigned Engagement Manager along with a Technical Consultant
- Data migration services for up to 6 TB of data \*
- Assistance with up to 6 Storage Sync & Connect installs \*
- Group provisioning and automation
- Desktop mass deployment automation assistance (2 apps)
- Intermediate permissions migration
- Four remote training sessions

\* Can be customized to meet your requirements.

*“... Red Bull’s North American divisions deploy Egnyte enterprise-wide with multiple terabytes of data. ... Part of the deal saw Egnyte’s own professional services team work with Red Bull to both customize the platform and facilitate data migration from Box.”*

### Egnyte’s Commitment to Customer Success

The Egnyte Professional Services team works with your organization to ensure you are taking full advantage of all the features and functionality that Egnyte provides. We have a proven track record of helping customers accelerate the time to deploy while ensuring each configuration meets best practice standards. Our team will work closely with your IT staff to assist with implementation, which will enable Egnyte to be deployed out to your end users quickly and effectively.

### Online Resources

You will receive access to our Getting Started portal, which provides access to knowledge base articles, webinars, communities, and videos. You will also have access to Egnyte University, which offers a number of training courses to help educate your end users. This access, along with Egnyte’s Helpdesk, will provide you the resources necessary to educate your users and ensure your launch is successful.

### Package Benefits

#### ACCESS TO EXPERTS:

Unlimited access to online training resources combined with dedicated consulting both remotely and onsite, ensuring a successful deployment

#### PERSONALIZED:

Optimize your Egnyte deployment so the architecture best meets your business requirements

#### FAST RETURN ON INVESTMENT:

Efficient deployment practices as well as direct deployment assistance helps ensure a successful rollout to your users, allowing visible ROI results quickly

## Deployment Roadmap and Onsite Visit

With the Gold Package, we will provide a three-day onsite visit, along with the standard remote sessions. You will receive direct consulting and deployment assistance from one of our experienced Technical Consultants. We will also provide you with an Egnyte Deployment Guide that will take you step-by-step through the best process for implementing your Egnyte instance.

## Project Overview

The Egnyte Professional Services team is committed to your success. The sample plan below provides an overview of the steps that will be covered during the sessions. You will work with your assigned Egnyte Engagement Manager to define your project plan so everyone can stay on the same page as we work through your Egnyte deployment.
